

Supplemental Figure 1. Cumulative incidence function plots for contralateral breast cancer development stratified by age and hormone receptor status

Breast-conserving surg + rad: breast conserving surgery with radiation; breast-conserving surg w/out rad: breast conserving surgery without radiation

Supplemental Figure 2. Cumulative incidence function plots for breast cancer-specific death stratified by age and hormone receptor status

Breast-conserving surg + rad: breast conserving surgery with radiation; breast-conserving surg w/out rad: breast conserving surgery without radiation
